

By Rigor RV Repair LLC

A Rigor Inspection is designed to cut out the fluff. You don't need a pro to document the serial number of your microwave or tell you that a light bulb doesn't work. We focus on the major dealbreakers and hard to test systems to deliver a useful report that will help you negotiate a fair price.

We offer the Rigor Basic Inspection and provide you with the Self-Check list of things you can easily check yourself in order to keep your costs down. Self-Check items can be added to the Basic inspection for an additional fee.

| Items Checked | Self | Basic |
|---|------|-------|
| Exterior Walls - Front, Rear and Sides | | |
| Front Wall Condition | | X |
